

EDI and the Commodities Research Bureau (CRB) Partner to Deliver Commodity Price and Fundamental Data

New York, Sept 2011

Exchange Data International (EDI), a well established provider of Securities Corporate Actions and Reference Data, today announced a new commodity pricing service in collaboration with the Commodities Research Bureau (CRB), the world's leading commodity and futures research, data and analysis firm since 1934.

With this partnership, EDI is now able to offer its clients comprehensive End-of-Day commodity pricing and fundamental data services covering over 1000 markets worldwide. The new commodity pricing service provides daily global futures, futures options and cash pricing data as well as commodity fundamental data covering global supply and demand, production, stocks etc...

"Since 2007 we have been providing clients with equity and bond end-of-day prices. Adding commodities to our pricing suite was the next step." says Jonathan Bloch, CEO at EDI. "We are happy to partner with CBR, one of the biggest names in commodities data, and ensure our clients receive clean accurate historical data and timely updates."

"Our relationship with EDI aligns perfectly with our goal of continuing to open new markets and broaden our market data portfolio," said Eero Pikat, President of Barchart. "EDI's global network is the perfect channel for us to market our CRB commodities data feeds," added Pikat.

As usual EDI is offering a flexible solution fulfilling clients' specific commodity data requirements. Clients of this service can purchase historical data and subscribe to daily file update services for one or several selected markets or the complete universe.

For more information on this new Commodity End-of-Day pricing service, call us at 212 – 214 -0825.
